

Compliance Case: 1 Space Classification

Professor M. E. Smart has an office and a lab. This office is his only office. The lab was assigned to him by his chair. He has three others that work in the lab for him. The funding for each is as follows.

Smart, M. E. (*Principal Investigator*)

1516100	601300	50%
3031234	603600	50%

Pippette, C. D. (*Research Tech*)

3031234	607500	25%
3839876	607500	75%

Newby, R. X. (*Undergraduate Student*)

1516100	606700	100%
---------	--------	------

Bookworm, T. A. (*Graduate Student*)

1516100	601200	50%
3031234	601200	50%

How should the space for the two rooms be allocated among the functions teaching, departmental research and sponsored research?

Office:

Lab:

Discussion points. How do you weight the effort of the faculty member in the lab? Newby is an undergraduate student and Bookworm is a grad student with a carrel down the hall. How does this affect the coding of the lab?
